

Knight Trainer Pro

More Fun, More Skill, More Champions

"This allows us to train as a doubles team when it is just the 2 of us - or 3 now if you count the machine!"

"Today, I practised smash returns for 2 hours with the Knight Trainer Pro. Best defence training ever!"

"My players love it. It is a coach/player win-win for sure."

Revolutionizing and perfecting badminton training

The Knight Trainer Pro creates a revolutionary way to rapidly improve badminton skills. Practice against any shot in the game while the Knight Trainer Pro tirelessly feeds drills from the simplest to the most complex.

The included tablet and pre-installed software allow for possibilities only limited by your imagination and willingness to push your training. The KTP has a capacity of more than 250 shuttles that can test any player's skills and endurance.

I have used it with players of all levels from beginner to expert, and ages from 8 to 80. The benefits are immediate and the results are fantastic.

- Robbyn Hermitage, Badminton Pro, Club Atwater, Montreal

Control Features

Quickly and easily open drills, or create and save new ones. Choose speed, direction, tilt and timing for each shot, and the Knight Trainer Pro will automatically make the changes to feed your drill. Customize training for each player as you select the shots and set the level of difficulty.

Unique Versatility

Simply set the height, choose the location on court, and create your shots with ease. Combine different kinds of smashes, drives, clears, drops, net shots, short or long serves, and the Knight Trainer Pro will continuously feed the drill randomly or sequentially as you choose.

Use the KTP with both feather and synthetic (nylon) shuttles, new or used.

Black Knight has 40+ years of experience in design and manufacturing of professional badminton and squash equipment.

Quiver

Manual feeding effectiveness at your fingertips.

Shadow Trainer

Improve your speed and agility faster than ever.

After years of development we are thrilled and honestly astonished by the capabilities of the Knight Trainer Pro. It blows past expectations, and opens up a new world of opportunities for badminton players everywhere!

- Black Knight Canada

UNIQUE FEATURES OF THE KNIGHT TRAINER PRO BADMINTON MACHINE

Choose the height from 137 cm (54") to 213 cm (84"), choose the KTP's position on the court, and use the included tablet to open an existing drill set for that height and location. Or, position the KTP as you wish, and easily create a new drill. Save and use the same drill over and over or modify it as you require.

Select among your shots to create exactly the playlist that you want, feeding the shuttle up to 250 times, whether as a drill or even as a simulation of a real point.

Set the intervals you want to allow between each shot.

With a capacity of over 250 shuttles, loop all of your playlist - or just sections - to repeat as many times as you want, in sequence or randomly, while the Knight Trainer Pro automatically changes direction, angle, speed and timing to generate your shots continuously for your training.

Drills can be set to run in a set sequence of shots or randomly as you prefer. For example, try a 6 point drill with clears to both corners, drop shots to both sides and smashes down the sidelines. Choose to run the drill with an interval of 2.5 seconds before each drop shot, 3 seconds before each clear and 2 seconds before each smash.

Or simply create a basic skill drill that repeats to any one point on the court over and over, with the timing you choose from 1 to 15 seconds, allowing the player the best possible chance to perfect consistency.

Electrical

The Knight Trainer Pro can operate at any voltage from 100 to 250V *but we must change a setting for voltages over 120V before shipping*. Our plugs are 3 prong for 120V and you will only need an extension cord and plug adaptor suitable for the country where the KTP will be used.

Height

Retracted: 137 cm (54"), expanded 213 cm (84").

JUST A FEW OF THE TRAINING BENEFITS

- 1 Increase mobility, movements and fitness
- 2 Increase accuracy and speed.
- 3 Increase hand-eye coordination and muscle memory
- 4 Increase range of shots and consistency
- 5 Increase player's confidence

ADDITIONAL FEATURES

Our innovative motors and circuitry provide an inexhaustible range of shots and drills. You can even send doubles and mixed teams against the Knight Trainer Pro. Create the sequence in the playlist, and let their doubles games improve rapidly.

The robust 3-wheel stand is mobile for easy positioning on court and is built for stability even when at maximum extension.

Create shot sequences based on real points, even including the shot placements of a rally from the World Championships.

Badminton coaches can be more productive with players of all skill levels, and will be able to easily measure the progress of each player using the consistent feeding of the Knight Trainer Pro.

Exchange your drills and points with coaches and players around the world.

Use a remote control to activate feeding in sequence or randomly, and to pause, start and stop.

Link multiple machines on the same court, operated within your drill for a dazzling display of shots.

The quality design ensures this low maintenance machine will provide you with years of training successes.

Made in Canada, the Knight Trainer Pro is covered by a 2 year guarantee.

KNIGHT TRAINER PRO

PROGRAMMABLE POWERFUL PRECISE

HOW IT WORKS

The Knight Trainer Pro sets up in minutes. Simply roll onto the court to the desired position, set the height and plug in. Select your drill or easily create new shots and drills, and then play. Changing shots is done in seconds using the application on the included tablet.

PROGRAMMABLE

Quickly adjust the targeted locations of your shots anywhere on the court as well as how you combine the shots into drills. Set the timing for each shot to match players' abilities.

POWERFUL

The Knight Trainer Pro is 40% more powerful than the original Knight Trainer but also able to deliver net shots and short serves.

PRECISE

Make the drill as difficult or as easy as you wish, with each shot delivered as you have specified, time after time.
